**Kahr® Arms Partners with Sports South to Introduce Gold .380 ACP**

**Greeley, PA** – Kahr Arms is proud to announce that they have partnered with Sports South to offer a limited edition exclusive double-action semi-auto micro-compact pistol in .380 ACP. The CT3833CG is offered in an attractive Cerakote Gold finish and can only be purchased through Sports South for a limited time.

The CT3833CG features a 3 inch conventional rifled barrel, an overall length of 5.5 inches, a height of 4.4 inches and weighs just 11.4 ounces. The pistol has a black polymer frame and a stainless steel slide. The attractive gold features can be found in the slide, trigger, and the slide stop lever giving it an opulent appearance.

The pistol features a lock breech, modified Browning type recoil lug, a passive striker block, and utilizes Kahr's seven patents including the "safe cam" action found in all Kahr pistols. The result is a micro-compact pistol with very little recoil and quick follow-up shots. The pistol also has a drift adjustable white bar-dot combat rear sight and a pinned-in polymer front sight. It has a 7+1 capacity. The high temperature gold Cerakote coating is a multi-step process which results in a durable finish that holds up well under normal use.

This highly sought after attractive gold pistol can only be purchased by dealers through Sports South for a limited time. It is shipped with two 7 round magazines and has a MSRP of \$439. To purchase it, please visit <http://www.internetguncatalog.com> to find a dealer near you. For more information about the fine line of Kahr pistols, visit [www.kahr.com](http://www.kahr.com).
